# ADRISMART

Adriatic Network for Smart  
Mariculture

ADRISMART – Adriatic Network for Smart Mariculture - is a project funded by the European Union under the Interreg IPA South Adriatic Programme 2021-2027.

### Duration

start date - end date

01.07.2025-31.12.2027

## Main Goal

The project aims to address biodiversity loss in marine environment through a scientifically informed, cooperative approach that promotes timely bio-conservation policies supported by data insights. ADRISMART focuses on mariculture as a solution, seeking to reduce demand on overexploited fish stocks by providing alternatives to consumers.

### Total budget

1.008.082,77

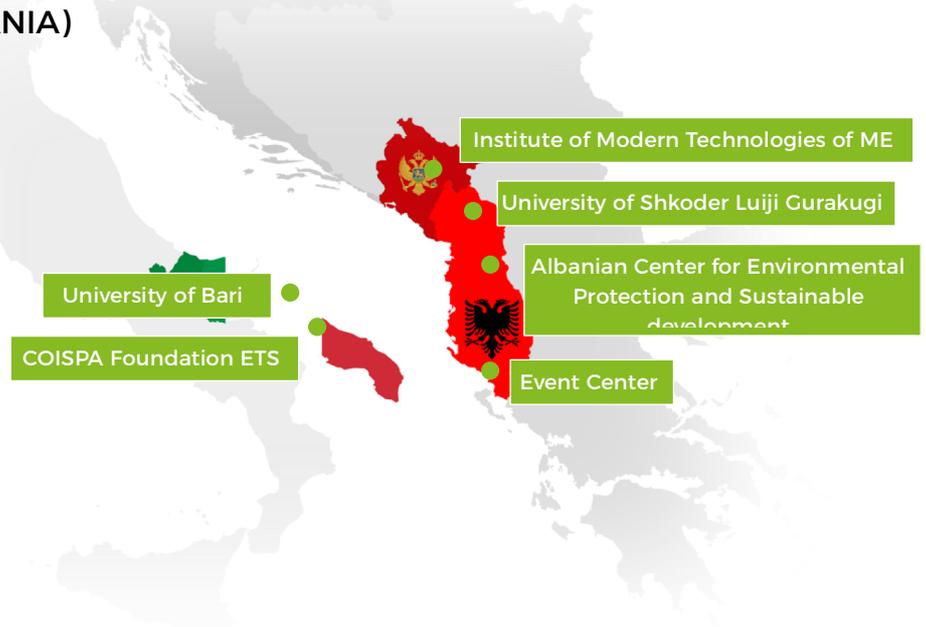

### EU funding

829.594,59 €

## Project Partners

- Lead Partner University of Bari Aldo Moro (ITALY)
- Partner COISPA Foundation ETS (ITALY)
- Partner Institute of Modern Technologies of Montenegro (MONTENEGRO)
- Partner Albanian Center for Environmental Protection and Sustainable Development (ALBANIA)
- Partner University of Shkoder “Luigj Gurakuqi” (ALBANIA)
- Partner Event Center (ALBANIA)

## Project main activities -Expected output/results

The project enhances technological innovation in mariculture using Artificial Intelligence (AI) tools. ADRISMART engages technical stakeholders through workshops and publications while involving citizens via dissemination events and digital campaigns. Expected outcomes include 2 pilot sites, a comprehensive monitoring system for water quality and animal welfare, a cloud platform for AI predictive modeling, common biosecurity guidelines and a Memorandum to combat biodiversity loss.
