NET4GREEN

Crossborder Innovation Ecosystem to increase the eco-entrepreneurial skills of youth and women

NET4GREEN is a project funded by the European Union under the Interreg IPA South Adriatic Programme 2021-2027.

Duration

start date - end date

01.07.2025-31.12.2027

Main Goal

Increase the eco-entrepreneurial skills of youth and women of Italy, Albania and Montenegro through the improvement of the quality of services of private and public organizations and the strengthening of the cross-border innovation ecosystem.

Total budget

1.069.868,45 €

EU funding

190.708,60 €

Project Partners

Lead Partner CIHEAM Bari (Italy)

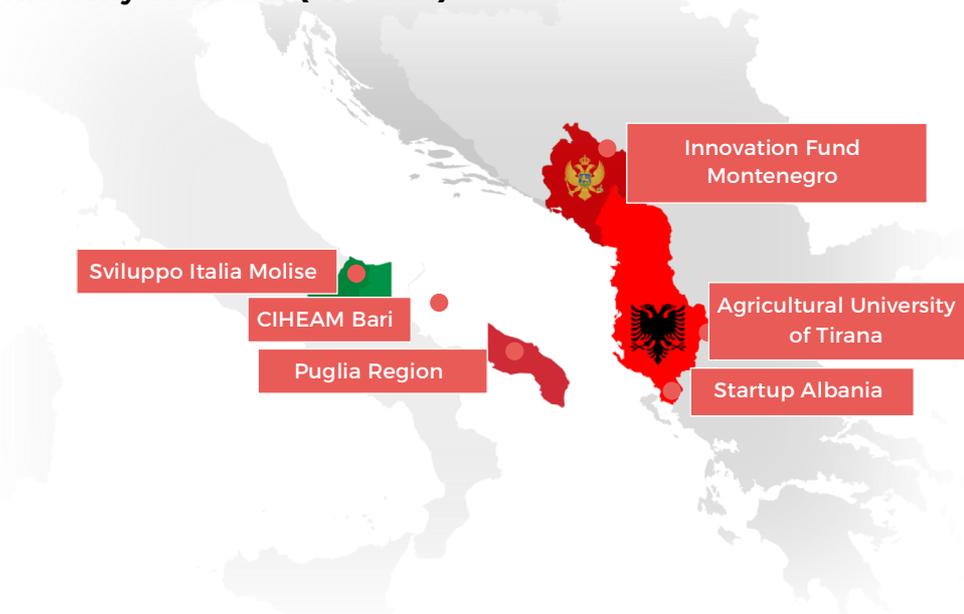

Partner Puglia Region Research Section and International Relationships (Italy)

Partner Startup Albania (Albania)

Partner Sviluppo Italia Molise (Italy)

Partner Innovation Fund of Montenegro (Montenegro)

Partner Agricultural University of Tirana (Albania)

Project main activities - Expected output/results

NET4GREEN Project focuses on creating a shared strategy to strengthen green entrepreneurship across Albania, Montenegro, Puglia and Molise. The project aims to foster sustainable, low-impact businesses by offering skills and tools to key stakeholders, developing an innovative ecosystem to attract talent, promoting women's entrepreneurship, training Business Support Organizations, and creating a vocational education and training (VET) program, the Short Master on Eco-Entrepreneurship, focused on integrating environmental principles into business activities. The project's peculiar approach is rooted in open innovation, utilizing human-centered design, needs analysis tools, five-fold helix model, co-design and co-creation methodologies. A specific digital tool will be developed to support the strategy, facilitate data collection and networking, and ensure the long-term sustainability and replicability of the project's outcomes.
